

I am 100% FOR the do-not call list. I am registered, both with my landline and my cellular phone. I still receive solicitations thru my home and cellular number. Due to this, the ringer is PERMANENTLY turned off on my landline phone to avoid these unwanted calls. I inform the calls to my cellular phone that if they continue to call, I will take legal action. I feel these unwanted calls are an invasion of my personal privacy (one of the great benefits of being an American citizen). Please help protect your people.
